**SUPPLEMENTARY INFORMATION:**

Interested parties are invited to send comments regarding any aspect of this information collection, including: (1) the necessity and utility of the information collection for the proper performance of the functions of the FTA; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the collected information; and (4) ways to minimize the collection burden without reducing the quality of the collected information. Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection.

## **Title: Rail Fixed Guideway Systems; State Safety Oversight**

**(OMB Number: 2132-0558)**

Background: FTA administers a national program for public transportation safety under 49 U.S.C. Section 5329. One element of this program, at 49 U.S.C. § 5329(e), requires States to oversee the safety of the rail transit agencies (RTAs) in their jurisdictions, including heavy and light rail systems, streetcars, inclined planes, cable cars, monorail/automated guideways and hybrid rail. Through this program, State Safety Oversight Agencies (SSOAs) ensure that RTAs identify and address safety risks, follow their safety rules and procedures, and take corrective action to address safety deficiencies.

The information collection activities request is for a renewal without change of a currently approved collection. The information collection focus is on the activities of SSOAs and RTAs to report information to FTA. This request for renewal of an existing information collection does not reflect any changes as a result of the Bipartisan Infrastructure Law. In the event that FTA updates State Safety Oversight requirements, FTA will seek comment from stakeholders through the publication of a separate Federal Register Notice outside of the Paperwork Reduction Act process.

The information collection request includes the annual report FTA requires from SSOAs, FTA's grant management reporting requirement and the triennial audit program, which requires information from both SSOAs and RTAs. Further, the information collection continues to reflect requirements for SSOAs and RTAs to respond to FTA directives and advisories, and SSOAs participation in monthly teleconference calls with FTA. Finally, the information collection request includes RTA event notifications to FTA.

*Estimated Annual Number of Respondents:* 96 respondents

*Estimated Annual Number of Responses:* 1,454

*Estimated Total Annual Burden Hours:* 16,366 hours

*Frequency:* Annually
